

100 - Person List

Take a few minutes to write down the names of everyone you know and everyone who knows you — friends, family, neighbors, friends of friends on the back of this page. Even if you don't think someone will be interested in Arbonne, write his/her name down. You will be amazed at how many people you know. This is one of the most important steps in creating success with Arbonne. Keep in mind that the people on this list will help you get started. You will continue to add to this list as you conduct presentations and meet new people. Know that the majority of your team is comprised of people you haven't met yet!
