

SCRIPT FOR BUSINESS OPPORTUNITY

Hi everyone! My name is XXXX and I'm a XXXX and Independent Consultant with Arbonne.

I want to share my story of how I came to partner with Arbonne. This is a business where ordinary people can make a change for the better in their lives and make a difference in the world. You can learn more info also at earnings.arbonne.com

The Time Is Now for Arbonne

I really believe that the time is now for Arbonne, for so many reasons. In 2020 we became a certified B Corp company. This is a unique certification that means we align people and the planet with profit. We are committed to sustainability and giving back – Arbonne supports a non-profit charity and we have helped many disadvantaged children over the years through our charitable foundation.

Global wellness is booming. This is a 4.2 trillion-dollar industry that continues to grow. Now more than ever people are focused on what they put on & in their body. People are demanding clean skincare, wellbeing and weight management solutions.

It's a fact that people want to shop online right now and have their products delivering to their front door. This is another market trend in huge growth right now. We are also evolving into a more “virtual world” and we have an online community - that is how I operate my business.

If you are someone with a great work ethic and a really strong determination to work hard, to consistently strive to achieve the goals you set for yourself, then you have a good opportunity with Arbonne to achieve your what you set out to do. It is exactly the same analogy as the fact that people join the gym in January and have quit by February. It's not for everyone, and you have to work hard at anything in life, you have to have an “I will not quit” mindset in order to achieve victory.

Everything has been created for you to start your business with a low entry cost and everything is set up for you. None of the headaches of setting up a business exist because Arbonne has done it all for you. And one of the things that excites me most about this opportunity is the fact that it is still the

beginning...Arbonne is currently only in 6 countries with more growth still to come.

As an Independent Consultant, you can:

1. Own your own online business with a low start-up cost and minimal risks
2. Work this business alongside your current career, school schedule or busy lifestyle.
3. Sell products you love and earn commissions when your clients order and reorder. Your clients can order directly from your Arbonne link and have their products delivered straight to their own homes. (We don't stock inventory or deliver products ourselves)

Having a business with consumable products is key. Your clients will buy the products, love them, run out and reorder over and over. That means repeat commissions on each reorder. You also earn rewards and incentive trips through your sales and the sales of your team.

Helping others flourish has become a big passion of mine and I have had the pleasure of helping many people. For me, the best thing about my business is the friendships that I have formed, the experiences I have had with them and the fun that we have had. I wouldn't have these incredible like-minded people in my life if it wasn't for my Arbonne business.

We have one life, one chance to make it the best possible life it can be. One shot at making a difference. I have been able to make a difference - to my life and to the life of others, just for saying yes.
