

Cosmetics Script for IG Party

Hey everyone! Welcome to the party! My name is XXXX and I am a XXXX and Independent Consultant with Arbonne. Before I tell you more about Cosmetics, I want to share a little bit about my story.

**Share your short 3-min "I" story here. (Your story must be compliant and cannot include time to promote, specific income information, replacing an income with Arbonne, etc.)*

You can learn more about the opportunity at Earnings.Arbonne.com.

Our Vision

- Our Founder, Petter Morck said, "When I dreamt of Arbonne I wanted it to be a place where people could flourish."
- In Arbonne, we are entrepreneurs who are passionate about healthy living. Our business is all about empowering people and helping them flourish by being good to themselves, their community, and the planet.

Sustainability

- We are B Corp certified which means we are held to higher standards. This certification means we value people and the planet, not just profit.
- We are committed to sustainability measures by decreasing waste and increasing recycling.
- We don't only want to be the best company IN the world, but the best company FOR the world. A Global Opportunity

- Have a global, online business with no geographical territories. You can build a business in any of the countries we mentioned earlier.

Our Product Difference

At Arbonne, we continually challenge ourselves to be transparent.

- We innovate using plant-based ingredients grounded in science and clinical research with high standards for safety.
- We have high ethical standards. In Europe over 1400 ingredients are banned. But in the U.S. we only ban 11. Arbonne abides by a stringent ingredient policy that has over 2000 ingredients on our Not Allowed List.
- Most products have 3rd party certifications. We subject all of our products to scientific testing to continually raise our standards.
- We are 100% Vegan, cruelty free and non-GMO. We are also formulated without gluten, dairy and artificial sweeteners.
- We offer a 45-day money back guarantee.
- These products are seriously the best of the best!

Consumable Products

- We offer a wide range of consumable products for the entire family.
- Having a business with consumable products is key. Your clients will buy the products, love them, run out and reorder over and over. That means repeat commissions on each reorder.
- This is a product driven business with the types of products people are already purchasing. These products are already in people's budgets.
- We offer something for everyone -- In addition to nutrition and skincare, we also have makeup, body care, hair care, essential oils, sports nutrition, men's line and even a baby line.
