

## Skincare Script for IG Party

Hi everyone! My name is XXXX and I'm a XXXX and Independent Consultant with Arbonne.

Today, we're going to talk about Skincare!

We develop our *skincare* products by carefully selecting botanical ingredients known for specific beneficial properties. Through innovation in science, we introduce formulas that make skin look more healthy, youthful, and beautiful.

Here are some of my favorite products:

### RE9 Advanced

Three years in the making, this supreme collection includes the latest in skincare advancements, coupled with exceptional ingredients like Sustainable Orange Stem Cells, so you can experience a regimen that helps skin look visibly rejuvenated and youthful.

We've elevated our star ingredient, Vitamin C, with the introduction of Sustainable Orange Stem Cells to help improve the appearance of skin radiance, elasticity, firmness and texture while minimizing the appearance of wrinkles, revealing truly healthy-looking skin.
