

Hey Everyone welcome to the party – Introduction of yourself

- Thank you for connecting with us virtually. I'm super excited to be here.

- Thank hostess.

- Share most fave thing about your hostess, have people do the same.

- I'm going share a little about Arbonne, our philosophies, our core product lines, the raffle and the give away at end, so don't miss out -- stay on til the end! –

Before clean, vegan, skincare was well-known & sought after, our founder Petter Morck believed that most chemicals used in skincare were not beneficial. Since 1980, Arbonne has specialized in botanically based skincare with higher ingredient standards. The name Arbonne, is actually named after a village in Switzerland that means “beautiful tree”

The bond between humans and nature is the essence of Arbonne. This vision has grown to include a holistic approach for total wellness.

Arbonne is proud to be recognized as a Certified B Corporation. Our transparent business practices ensure that we empower people to flourish and help create a sustainable planet for the future.

We believe we can effect real change by offering product choices that won't harm you or the planet.

-So when it comes to our philosophy, we have actually trademarked, mind body and skin. We believe in a holistic approach to beauty, health and wellbeing, focusing on the whole person to help them flourish inside and out. Our philosophy embraces that connection between a healthier mind, stronger body, and more beautiful skin. It's what sets us apart from the competition: We are Vegan, Cruelty Free, and Formulated without Gluten. We use plant-based ingredients and work with holistic experts for new products and education. We strive

to be an open book in our actions, words, business model and ingredients we choose.

-Now, I am going to share with some of the ways that I personally use these products. I've created bundles to make it super simple to understand what they do.

- The first one I'm going to talk about is my HEALTHY LIVING BUNDLE. Many people want to have healthier habits, so if that applies to you, I want you to drop the word HEALTHY in the comments below and I will send you the link to an overview by a Doctor that covers the why and the what of our 30 days to healthy living program.

The 30 Days to Healthy Living program offers a doable plan to get you on track with good habits that can support long-term wellness. The program features a step-by-step guide for how to fill your day with healthy foods and supplements, promoting a more balanced gut.

So much of our overall well being is controlled by our gut, so supporting this area of our body will help optimize how we feel as well as how we look. Its also designed to help us feel more confident in ourselves. When we are also rested and have a positive mindset, you can see some really amazing changes! You will be added to a supportive FB group, where our community will help you every step of the way, plus the consultant who shared the program with you is a great resource as well! Many people want to do better, but it can be so confusing so they just give up. So, to hear more about the 30 days to Healthy Living program drop the word HEALTHY in the comments and I will be sure you get that info.

-I start every single day with the next bundle I'll call the WELLNESS BUNDLE. It is something anyone can do, and it really makes a difference in how I feel! It's a simple step that helps me treat my body well. This is the Greens balance, it's like salad in a jar! It helps you get a more balanced diet with our blend of green, red, blue and yellow fruits and vegetables delivering antioxidants, phytonutrients and fiber.

Just add one scoop to 8 ounces of water. Dr. Barbara Beaty, a PhD in nutrition and wellness, once stated that you want your cells bathing in greens like chlorella, spirulina. Next I add our digestion plus, which is pre biotics, pro-biotics, and enzymes all in one step. It helps support healthy digestion and gut health balance. It helps me say bye bye bloat! I also add mind health - which helps support concentration and focus. It contains B12 plus a key ingredient that is a building block for brain cells, CoQ10, and is your daily dose of support for cognition. The Skin elixir helps build your collagen for healthy-looking skin, hair and nails with a botanical blend. As we get older our collagen production slows down, and this supplement is great to help with that.

We all live a fast paced lifestyle and this daily wellness drink is such an excellent super simple way to improve gut health by adding those nutrients to your body every single morning.

-Ok, now let's move on to the BREAKFAST CLUB BUNDLE. It's a wonderful way to get going for the day. I drink my detox tea, which has milk thistle to help support your liver and kidneys. You can drink this hot or cold. I like to add a little fizz stick to it - and you can have a tizzy! I'll talk more about fizz in a second. -Then I move onto my protein shake. We have chocolate and vanilla. And occasionally we have additional limited time flavors! It is clinically tested and certified low glycemic index. Just mix with almond or coconut milk, throw in some berries if you want - and you are good to go with this meal replacement shake until lunch. It's even great just with water! You will get 20 grams of plant based protein from brown rice, yellow pea and cranberry which delivers essential amino acids and more than 20 vitamins and minerals. Plus it TASTES SO GOOD! I mean what does it matter if you don't like the taste, right? haha - Now lets talk Fizz. I cannot live without it. You can do 2-3 a day to promote alertness with botanicals like Ginseng, B vitamins, COQ10 and chromium. It has Green Tea, which helps boost energy. It's DELICIOUS! And we have 3 fabulous flavors to choose from! That is what we call the breakfast club - the shake, fizz & detox tea - so if you are interested in that, drop BREAKFAST CLUB in the comments and we can talk more about that. YOU CAN CHOOSE WHICH LINES TO TALK ABOUT

based on your audience or time allowed, or what personal experience you have with the skin care line you use.

-The next set I have is the AGE WELL bundle : RE9 advanced with resurfacing pads. As we age, many of the key signs of healthy-looking skin, like firmness and radiance, begin to decrease. RE9 features Vitamin C and Orange Stem Cells to help target those concerns all in one regimen. Comparably formulated lines would cost you much more, so I believe when you try this you'll not only love the results but you'll love the value. Add on the Genius Pads to boost improvement in skin clarity blotchiness, and overall skin brightness. We have great skincare regimens for all skin types & ages, men or women. Its so versatile to mix and match the lines and you can interchange or layer them based on your needs. Prepwork is a line for those not yet looking to target wrinkles but it is a line very popular to use along with RE9 for those of you wanting versatility. BioHydria line will plump up hydration and your skin will respond with a dewy glow. I love mixing this line with our RE9 line. Clear Future targets acne at each step, helps clear up blemishes you already have and prevent new ones. Calm line: Stress can cause your skin to react with redness, tightness or dryness. 3 step Super calm features Tiger Grass and Probiotic Lysate and is clinically tested to help sooth skin. You can Supplement with Inner calm with Ashwaganda to help the body adapt to stress. It's peach flavored and you just add it to water! Even a great baby skincare line - in fact, many people have heard about Arbonne from their pediatrician suggesting our baby line. We certainly want to use only the best on our little ones! Drop the key word AGE WELL to talk more with us about which skincare regimen is best for your needs!

Next bundle is what I call my GLOW WELL bundle. With our Ready in Five makeup set, you get cc cream, mascara, lip gloss, eye brow product and blush which is the core of any makeup routine. Its a quick ready to go out the door, and if you want to add something on, this glow palette is amazing, and people ask me "oh my gosh, what are you doing!" Drop GLOW WELL into the comments if this is what you are interested in.

For Hair care, we have the True Hair Line. Our products are free of silicone, parabens and sulfates, and will help protect hair from damage caused by environmental stress and heat styling. This hair care range helps your hair be its natural best! Just drop HAIR CARE for follow up about that.

-To end my evening, this is my SLEEP WELL BUNDLE. Sleep well spray will help promote restorative sleep and healthy sleep patterns! I love it because I don't wake up groggy, either. I like to use this blend of essential oils [lavender or harmony] to diffuse or apply topically. I also like to use the essential oils with wool balls in my dryer instead of dryer sheets which can have toxic fragrance. The rescue and renew detox oil is a great massage oil, for after bath – it smells JUST LIKE a spa! -- and, incidentally the rescue and renew detox oil is great for bug repellent! Drop SLEEPWELL in the comments if you are interested in info on that. - Ok, I've told you a lot, if you are interested in any info on any of the bundles , drop in the comments, I'll also pop some pictures in the group after we are finished.

- There are 2 ways you can be involved with arbonne. The first way is to become a Preferred client where you will get 20-40% off your product orders for a year, along with several other perks. The second way is to become an Independent Consultant like I am. If you take the time and effort to grow your business, there are numerous income opportunities.

We earn commissions when product recommendations from personal experiences lead to product sales, and show others how to do the same. If you want more info on how to become an Independent consultant, drop TELL ME MORE in comments and we will be sure to follow up with you. (make sure if you speak of any income or benefits with the business you post earnings.arbonne.com)

-Ok, here's the info about the how to win the freebies!! Open next 48 hours. I'm going to put a link to a vip customer group on the page, so anyone who asks to join, I'll accept you to the group and put you in the drawing. I'm giving away a super Arbonne sampler pack... all different products to try and you will love! Oh and when you purchase

a bundle in the 48 -hour window, before the party closes, you will go into a different drawing!

-We actually grow our businesses thru social sharing methods like this, so if you would like to post a party like this for your friends post HOST in the comments and we will be sure to follow up with you. -I just want to thank you all for being on here tonight, thank you {HOST NAME} for inviting your friends and family and trusting me to share with you all tonight, I hope you all stay well and be well and I will talk to you all soon. Have a great night!
